

SCIENCE BULLETIN: LIGHT POLLUTION: BEYOND THE GLARE	
Questions	Light Pollution
1. What <b>abiotic</b> factor(s) have <b>people</b> changed?	
2. <b>Why</b> do people <b>change</b> the <b>abiotic</b> factor? Why does it help us?	
3. What are the <b>consequences</b> to the living ( <b>biotic</b> ) and non-living ( <b>abiotic</b> ) parts of the ecosystem of that abiotic change?  Use the terms abiotic and biotic factors in your answer.	
4. How do you know these are the consequences?  Describe the <b>evidence</b> or <b>data</b> that support the claim that changing this abiotic factor impacts the surroundings.	
5. Suggest how you might solve this problem.
