Literacy and Social Studies Activity

ACTIVITY OVERVIEW
This activity, which is aligned to the Common Core State Standards (CCSS) for English Language Arts and the New York State Social Studies Elementary Standards, introduces students to the process of mummification in ancient Egyptian and Peruvian societies.

This activity has two components:
1. AT THE MUSEUM, students will read and engage with exhibition texts (including printed text, digital and physical/hands-on interactives, videos, and models). This information will help them complete the post-visit writing task.
2. BACK IN THE CLASSROOM, students will complete a CCSS-aligned explanatory writing task about mummies of Egypt and Peru.

Materials in this packet include:
For Teachers
• Activity Overview (p. 1-2)
• Answers to the student worksheets (p. 3-6)
• Essay scoring rubric (p. 7)
For Students
• Student worksheets (p. 8-11)

1. DURING YOUR VISIT
At the Museum, students will observe specimens and engage with texts (including printed text, digital interactives, videos, and models). The information they’ll gather from these sources will help them complete the post-visit writing task.

Preparation for Museum Visit
• Review the educator’s guide to see how themes in the exhibition connect to your curriculum and to get an advance look at what your students will encounter. (Guide is downloadable at amnh.org/mummies-for-educators)
• Familiarize yourself with the student worksheets (p. 13-14) and the map of the exhibition.

Important Information about the Mummies Exhibition
• In keeping with the sensitive nature of displaying human remains, the exhibition’s atmosphere is somber and the lighting is dim.
• Photography is prohibited.
• Accompanying labels are often positioned above the display cases.
• Titles of the scans and their corresponding mummies do not always match, but the scans go with the mummies they are closest to.
Suggestions for Facilitating the Museum Visit

• Explain the goal of the Museum visit: to observe specimens and engage with texts (including printed text, digital interactives, videos, and models), and to gather information to help them complete the post-visit writing task.
• Review the worksheet. Clarify what information students should collect.
• Have students explore the exhibition in pairs, with each student completing his or her own student worksheet.
Encourage student pairs to ask you or their peers for help locating information. Tell students they may not share information with other pairs, but may point each other to places where information needed to complete the worksheet can be found.

2. BACK IN THE CLASSROOM

Students will use what they have learned from the visit to the Museum to complete a CCSS-aligned explanatory writing task about mummies.

Preparation
• Plan how you will explain the student writing task, on the first page of the student entry sheet (p. 15), to students.

Instructions
• Review the writing task and rubric with students. Explain that they will use it while composing, and also to evaluate and revise what they have written.

Suggestions for Facilitating Writing Task
• Before they begin to write, have students use the writing task to frame a discussion around the information that they gathered at the Museum. They can work in pairs, small groups, or as a class, and can compare their findings.
• Referring to the writing prompt, have students underline or highlight all relevant passages and information from the notes taken at the Museum. Instruct each student to write down any useful information gathered by their peers.
• Students should write their essays individually.
• Have students self-assess and revise their work using the essay scoring rubric. You may choose to create a student friendly self-assessment checklist based on column four of the essay scoring rubric.
Welcome to Mummies! Today, you will come face-to-face with real mummies from the ancient cultures of Peru and Egypt. You’ll observe and study what the mummies look like on the outside. You’ll also discover what scientific imaging, like CT scans and X-rays, reveal about what mummies look like on the inside.

NOTE: Location numbers refer to the map in the Mummies Educator’s Guide (amnh.org/mummies-for-educators)

PERU SECTION

In the Peru section, pick two mummies to observe. Be sure to pick mummies with scientific imaging, like CT scans and X-rays, that reveal what these mummies look like on the inside.

Peruvian Mummy #1

Draw and label the mummy.

NOTE: All Peruvian mummies are found in sections 2a-2f.

When was it made?

See top of case.

Describe the outside of the mummy.

Answers will vary.

Describe what the scan shows about the inside of this mummy.

Many mummies have images of scans next to their cases. See section 2b for a touch-screen interactive with more information about many of the mummies.
Peruvian Mummy #2

Draw and label the mummy.

NOTE: All Peruvian mummies are found in sections 2a-2f.

Describe what the scan shows about the inside of this mummy.

Many mummies have images of scans next to their cases. See section 2b for a touch-screen interactive with more information about many of the mummies.

PERU VS. EGYPT SECTION

In between the Peru and Egypt sections, find and read the panel that compares these two cultures. List two interesting facts about mummification in Peru, and two interesting facts about mummification in Egypt.

This information can be found in section 3; information about mummuification in Peru is in the column on the right, and information about mummuification in Egypt is in the column on the left.
Egypt Section

In the Egypt section, pick two mummies to observe. Be sure to pick mummies with scientific imaging, like CT scans and X-rays, that reveal what these mummies look like on the inside.

**Egyptian Mummy #1**

<table>
<thead>
<tr>
<th>Draw and label the mummy.</th>
</tr>
</thead>
</table>

**NOTE:** All Egyptian mummies are found in sections 4a-4g.

<table>
<thead>
