| SCIENCE BULLETIN: HIGHWAYS BLOCK BIGHORN SHEEP |               |
|--|---------------|
| Questions                                      | Bighorn Sheep |
| 1. How have people changed the                 |               |
| habitat in this example?                       |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
| 2. Why do people change the                    |               |
| habitat?                                       |               |
|  |               |
| How does it help us?                           |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
| 3. How do the habitat changes                  |               |
| impact populations in this area?               |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
| 4. How do you know that the                    |               |
| habitat is being changed and that              |               |
| local populations are affected?                |               |
|  |               |
| Describe the evidence or data.                 |               |
|  |               |
|  |               |
|  |               |
|  |               |
| 5 Oversetherster 1. U.S.                       |               |
| 5. Suggest how to <b>solve</b> this            |               |
| problem.                                       |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
|  |               |
