

Duke Lemur Center

James P. Herrera, Program Coordinator
3705 Erwin Road
Durham, NC 27705-5000

Phone: (786) 546-8432
Fax: (919) 490-5394
Email: james.herrera@duke.edu

Education:

- 2015 Stony Brook University, Stony Brook, NY.
Ph.D., Anthropological Sciences (Physical Anthropology)
- 2009 University of Miami, Coral Gables, FL.
B.A., Anthropology (Biology minor)

Academic Appointments:

- 2019-present Research Scientist, Program Coordinator
Duke Lemur Center SAVA Conservation, Duke University, NC.
- 2018-2019 Assistant Director, Triangle Center for Evolutionary Medicine, Duke
University, NC.
- 2017-2019 Postdoctoral Associate, Department of Evolutionary Anthropology,
Duke University, NC. Supervisor: Charles L. Nunn.
- 2017-present Research Associate, Department of Mammalogy, Division of
Vertebrate Zoology, American Museum of Natural History, NY.
- 2015-2017 Gerstner Scholar Postdoctoral Research Fellow, Richard Gilder
Graduate School, Department of Mammalogy and Division of
Vertebrate Paleontology, American Museum of Natural History, NY.
Supervisors: John J. Flynn, Nancy B. Simmons.
- 2010-2013 National Science Foundation Graduate Research Fellow. Stony Brook
University, NY. Advisor: Patricia C. Wright.

Grants, Awards, and Honors:

- | | |
|------|---|
| 2019 | Thomas Jefferson Fellowship, in partnership with Pablo Tortosa, University of La Réunion (\$20,000) |
| 2019 | Duke Bass Connections Award for Outstanding Mentor |
| 2019 | Duke Bass Connections Grant in Global Health, in support of “Social-ecological networks and zoonotic disease in rural Madagascar” (\$25,000) |
| 2018 | Duke Bass Connections Grant in Global Health, in support of “How do people affect zoonotic disease dynamics in Madagascar?” (\$25,000) |
| 2015 | Gerstner Scholar Postdoctoral Fellowship, Richard Gilder Graduate School, American Museum of Natural History, New York NY |
| 2015 | Earnest A. Hooten Prize for Best Student Poster, 84 th annual meeting of the American Association of Physical Anthropologists, St. Louis MO |
| 2013 | Mohamed bin Zayed Species Conservation Grant, in support of “The search for Sibree’s dwarf lemur (<i>Cheirogaleus sibreei</i>) in southeast Madagascar” (\$5,000) |

- 2013 International Society of Primatology Research Grant, in support of “Ecological speciation and sexual selection in dwarf lemurs (Genus *Cheirogaleus*)” (\$2,000)
- 2013 Explorer’s Club-Eddie Bauer Young Explorer Grant, in support of “Long-term changes in endangered lemur populations: effects of habitat loss and climate change in Madagascar” (\$12,500)
- 2012 Margot Marsh Biodiversity Foundation, in support of “Ecological survey of endangered lemurs in an unprotected forest corridor in southeast Madagascar” (\$12,000)
- 2012 Leakey Foundation Dissertation Award, in support of “Evolutionary ecology of lemurs in a rainforest in Madagascar” (\$13,395)
- 2012 Primate Conservation, Inc., in support of “The search for Sibree’s dwarf lemur in southeast Madagascar” (\$5,000)
- 2012 American Society of Primatology Conservation Grant, in support of “The search for Sibree’s dwarf lemur in southeast Madagascar” (\$1,495)
- 2012 Rufford Small Grants Foundation, in support of “The search for Sibree’s dwarf lemur in southeast Madagascar” (\$8,930)
- 2010 Ernst Mayr Travel Grant in Animal Systematics, Museum of Comparative Zoology at Harvard University, in support of “Species delineation in the subfossil lemur assemblage: how many species have gone extinct?” (\$1,200)
- 2010 La Conservatoire Pour la Protection des Primates Research Grant in support of “Modeling the distribution and abundance of *Avahi peyrierasi* based on geography, climate and forest structure” (\$3,250)
- 2010 Conservation International, Primate Action Fund Research Grant, in support of “Modeling the distribution and abundance of *Avahi peyrierasi* in southeast Madagascar based on geography, climate and forest structure” (\$3,000)
- 2010 National Science Foundation Graduate Research Fellowship (\$100,000)
- 2009 Alliance for Graduate Education and the Professoriate Scholarship
- 2009 W. Burghardt Turner Fellowship, SUNY Stony Brook
- 2009 Full tuition scholarship, SUNY Stony Brook

Teaching & Mentoring Experience

- Nov 2019 Agroecology Workshop in SAVA region. Co-lead for sustainable agriculture workshop with rural communities in Antalaha, Sambava, and Andapa districts in partnership with NGO Terra Firma International.
- Oct 2019 Field Ecology and Conservation Workshop at Marojejy National Park. Collaborative field school with the Centre Universitaire Regional du SAVA (CURSA) engaging 40 Malagasy undergraduates in methods and applications in botany, herpetology, entomology, and sustainability.
- June – Aug 2019 Bass Connections program integrating three Duke undergraduates, one Duke Masters student, and two Malagasy students in field research in Madagascar. Co-leaders: Dr. CL Nunn, Dr. R Kramer
- May 2019 Evolutionary Medicine Summer Institute. Co-organizer and instructor for week-long workshop in evolutionary concepts and statistical approaches applied to medicine and public health. Leader: Dr. Charles Nunn
- Fall 2018 Biodiversity, Health, and Conservation. Graduate and undergraduate course with topic-based seminars on the links between biodiversity conservation and public health policy. Co-instructor: Dr. CL Nunn
- June 2018 – Spring 2019 Bass Connections program integrating three Duke undergraduates, one Duke medical student, and one Malagasy graduate student in field research in Madagascar. Co-leaders: Dr. CL Nunn, Dr. R Kramer
- June 2018 Evolutionary Medicine Summer Institute. Co-instructor for week-long workshop in evolutionary concepts and statistical approaches applied to medicine and public health. Leader: Dr. Charles Nunn
- Spring 2017 Mammalogy. Graduate course with topic-based seminars and collections-based anatomy laboratory, AMNH. Co-instructor: Dr. NB Simmons
- September 2015 – present Mentor for CUNY college undergraduate Alejandro Laserna. Guiding independent research project on the evolution of primate behavior, NSF REU supervisor.
- June 2011-present Mentor for Tongaso Lydia, University of Antananarivo. Supervised field research in preparation of Ph.D. dissertation. Project title: Behavioral ecology and habitat suitability of *Hapalemur griseus* in southeast Madagascar.

- 2011, 2012, 2013 Teaching assistant, guest lecturer, student mentor for Stony Brook Study Abroad in Madagascar program. Supervisor: Dr. PC Wright
- 2009, 2014 Teaching assistant, Stony Brook University, courses in Cultural Anthropology and Archaeology

Research Projects & Training:

- 2017 – Present Ecology and evolution of infectious diseases. 1) Studying the co-evolution of primates and parasites. 2) Investigating zoonotic disease transmission among people and small mammals of Madagascar with field trapping and human surveys. Supervisor: C.L. Nunn.
- 2016 – 2017 Bat community ecology in Belize. Surveys for bat diversity in multiple sites and a forest fragment in Orange Walk, Belize. Bat captures (mist nets, harp traps, hand nets) and database management for four years of captures during expeditions lead by N.B. Simmons. Supervisor: N.B. Simmons.
- 2015 – 2018 Inferring the phylogeny and diversification dynamics of primates, living and extinct. Compiling published morphological data matrices and DNA sequences, collecting new morphological data for living and fossil species. Compiling primate fossil database including occurrences, stratigraphy, paleoenvironments, and traits. Supervisors: J.J. Flynn & N.B. Simmons.
- 2011 – 2014 Ecological survey and monitoring project around Ranomafana National Park and peripheral zones. Surveys using line-transect and live-trapping methodology to sample primates, trees, birds, frogs, chameleons, rodents, and insects across gradients of anthropogenic disturbance and topography. Supervisor: P.C. Wright.
- 2010 – 2015 Inferring the phylogeny of lemur species using a total evidence approach. Measuring morphological traits from museum specimens of lemurs, lorises, galagos, and fossil primates. Generated molecular sequences from hair and fecal samples collected in the field, especially focusing on dwarf lemurs (*Cheirogaleus*). Inferring phylogeny and divergence times using likelihood and Bayesian techniques. Supervisors: E.R. Seiffert, L.M. Dávalos.
- March 2014 Bodega Bay Applied Phylogenetics workshop, led by Dr. Peter Wainwright, UC Davis Ecology and Evolution
- April 2012 AnthroTree Workshop, led by Dr. Charles Nunn, Duke University

Relevant Employment:

Assistant Director, Triangle Center for Evolutionary Medicine, Duke University, Durham NC. August 2018 – June 2019.

Gerstner Scholar Postdoctoral Fellow, American Museum of Natural History, NY NY. July 2015 – Present.

Teaching Assistant, SUNY Stony Brook. Stony Brook, NY. Gender in Latin America; Archaeology of Food; Science and Technology in Ancient Societies. 2009 – 2010, 2013

Consultant, “Interactive Dynamics of Wildlife and Human Interaction” Project, Makira region, Madagascar, NSF funded project by U Harvard and UC Berkley; training Malagasy personnel in ecological survey techniques. January 2012

Institutional Collaborations:

Institute for the Conservation of Tropical Environments, Stony Brook University
Centre ValBio Research Station in Ranomafana National Park, Madagascar, SBU
Malagasy Institut pour la Conservation des Ecosystèmes Tropicaux, Madagascar
Center for Inclusive Education, SBU

Synergistic Activities:

- Aug 2018 – May 2019 Committee member on Undergraduate Senior Honors Thesis; Ajilé Owens and Ryan Fitzgerald, Duke Global Health Institute, Duke University
- Jan 2017 – present Member of IUCN Species Survival Commission Primate Specialist Group, Madagascar Section, 2017-2020
- June 2016 Invited lecture for Oyster Bay Audubon Society, New York, entitled: “The unique wildlife of Madagascar”
- April 2016 Invited lecture for Department of Biology, City College of New York, entitled: “Resource abundance determines diversity across scales in Malagasy primates”
- September 2015 Invited lecture for Bruce Museum special exhibit, Extinct Madagascar, entitled: “Biogeographic inferences with extinct lemurs support the role of the central plateau as a dispersal route between wet and dry forests”
- October 2015 Invited lecture for University of Miami course in Wildlife Conservation, entitled: “Conserving corridors: using biodiversity research and community development to preserve natural habitats in Madagascar”
- June 2014 Invited lecture for Oyster Bay Audubon Society, New York, entitled: “Conserving corridors: using biodiversity research and community development to preserve natural habitats in Madagascar”
- March 2014 Lectures for Stony Brook University course in Primate Conservation, entitled: “A tale of two lemurs: endangered dwarf lemurs as a model for biodiversity conservation in Madagascar”, and “Conserving corridors: using biodiversity research and community development to preserve natural habitats in Madagascar”
- 2013 – 2014 “Ny Alan’olona”: Initiating a conservation organization led by rural Malagasy landowners to manage their natural lands sustainably. Project includes biodiversity research and education, reforestation, sustainable farming, and capacity building for an official government-sanctioned conservation association. In collaboration with Tongasoa Lydia, Ph.D. candidate U of Antananarivo.
- 2011-2013 Lectures for Stony Brook University Study Abroad in Madagascar Program: The History and Mystery of Life on Madagascar, Effects of Human Disturbance on Biodiversity in Madagascar, Field Methods for Estimating Biological Diversity and Abundance, Statistics for Ecological and Social Data, R Statistics Workshop

Oct-Nov 2011 Led biodiversity and socio-economic field expedition for the Stony Brook University Study Abroad program. Supervised 7 American and 1 Malagasy undergraduate in ecological and social surveys for independent research.

Manuscript review:

Systematic Biology, Molecular Phylogenetics and Evolution, Journal of Biogeography, Biological Conservation, Methods in Ecology and Evolution, Biotropica, Journal of Human Evolution, International Journal of Primatology, American Journal of Physical Anthropology, Madagascar Conservation and Development

Analytical Software Proficiency:

R: statistical computing environment, R Development Core

MrBayes: phylogenetic systematics, Ronquist et al.

RaxML: phylogenetic systematics, A. Stamatakis.

Geneious: bioinformatics software, Biomatters Development Team

ArcGIS: geographic information systems software, ESRI

DISTANCE: wildlife abundance estimation using line transect distance sampling data, Thomas et al.

Amira: 3D digital reconstruction software, FEI Software
