Please review these school and camp group guidelines with your group before your visit. Any school or camp group not following the below guidelines will be asked to leave the Museum. Thank you for your cooperation.

- Please use “inside voices” throughout the Museum at all times.

- Safety is our first concern — no running, yelling, listening to radios, or using Museum exhibit cases as drawing surfaces is allowed.

- Please note other school groups and visitors will be sharing the exhibition space. It is very important that your group be focused and respectful of others.

- Many of the Museum’s artifacts, specimens, paintings and murals are not to be touched. Help us protect our priceless treasures by respecting our collections.

- No food, drink, candy, or chewing gum allowed in exhibition halls. Dispose of all trash in trash receptacles.

- Please keep all coats, hats or backpacks with you at all times.

- The museum requires one adult chaperone for every 10 students. Chaperones must remain with their group at all times.

- Rose Center for Earth and Space: Please be advised when using the escalators to use caution, hold handrails, and exit promptly.

- Photography is allowed with handheld cameras (except where noted) and with available light or electronic flash attachments. Tripods and lights may not be used. Reproduction or sale of photographs is not allowed without permission. Photography is not permitted in the theaters and in special exhibitions.
