Student Entry Sheet - Page 1

During your visit to the Mummies exhibition, you learned that the people of ancient Egypt and ancient Peru created mummies. Now you will write an essay in which you will describe two mummies that you observed in the exhibition.

First, write an introduction to your essay. Then, describe a mummy from ancient Peru. Your description should include both what it looks like on the outside and what its scan shows about the inside. Include a labeled drawing of the mummy with a caption. Next, describe a mummy from ancient Egypt. Your description should include both what it looks like on the outside and what its scan shows about the inside. Include a labeled drawing of the mummy with a caption. Lastly, write a concluding paragraph.

My class and I went twice to the museum and we saw some mummies from ancient Peru and ancient Egypt. They look different because they were from different cultures. In the next paragraph I will tell you about them.

Ancient Peru had mummies that were covered in cloth and rope to preserve the figures. One of the mummies was made in A.D. 1,000 - 4,000. What I described on my other paper is that I saw the mummy of a young child and he had looked like a bundle with fabric and some rope but inside you could see he was a bit broken and a little curved but at least he had some toys.
Ancient Egypt had mummies that were inside of sarcophagus and some were just wrapped in some fabric or cloth, maybe even plaster. One of the mummies I chose was made in 332-30 B.C. Outside he had fabric and plaster he looked well preserved and inside with the computered tomography (CT scan) it looked like different ways to be seen inside, outside, and parts of it.

In conclusion, I will compare cultures. The Egyptians started making mummies 5,500 years ago, and the Peruvians and Chileans started 7,000 years ago. (1,500 year difference).

Egyptian mummies were encased in wood coffins and stone sarcophagus. The Peruvian mummies were bundled up in fabric, cloth, and they were given false masks. Even though they had different methods, they both took care, preserved and honored their dead.
Caption: These pictures are of the mummy. Called is it a male or female? It was made in 332-30 B.C. Egyptian mummy.
Caption: 
the mummy of a young child was made in A.D. 1000-4000 in Peru. One is the scan and one is just the bundle.
