

Polar Bears Weather the Winter

This female polar bear is coming out of her snowy den at springtime. During the cold Arctic winter, she and her cubs stay under the snow to be warm and safe.

WHAT TO DO:

1. Cut out each picture along the dotted line.
2. Arrange the pictures in the right order.
3. When you're happy with the order, tape them together on the backside.
4. Color the pictures!
