

## MARY E. BLAIR

Center for Biodiversity and Conservation  
American Museum of Natural History  
Central Park West at 79<sup>th</sup> St.  
New York, NY 10024  
mblair1@amnh.org  
office (212) 313-7077 - fax (212) 796-5292

### Research Interests

As a conservation biologist focusing on primates, my research integrates spatial modeling and molecular genetics to understand the evolutionary processes that generate biodiversity and the influence of environmental variability on evolutionary divergence. I also explore how knowledge of evolutionary processes can inform conservation planning and the spatial prioritization of conservation actions, alongside knowledge from diverse sources and perspectives. Research keywords: Conservation biology; conservation biogeography; ecological niche modeling; social-ecological systems; molecular phylogenetics; landscape genetics and ecology; primatology.

### Education

Ph.D., Evolutionary Primatology, 2011, Columbia University Dept. of Ecology, Evolution and Environmental Biology, New York, NY.

M.A., Ecology and Evolutionary Biology, 2006, Columbia University, New York, NY.

B.A., Biology and Anthropology, 2005, Swarthmore College, Swarthmore, PA. *Phi Beta Kappa*.

### Appointments

Director of Biodiversity Informatics Research, Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY 2016-Present

Assistant Director for Research and Strategic Planning, Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY 2013-2016

Affiliated Professor, Richard Gilder Graduate School, American Museum of Natural History, New York, NY, 2014-Present

Affiliated Professor, Dept. of Ecology, Evolution and Environmental Biology, Columbia University, New York, NY, 2014-Present

Resource Faculty, New York Consortium in Evolutionary Primatology, New York, NY, 2013-Present

Adjunct Associate Research Scientist, Earth Institute Center for Environmental Sustainability, Columbia University, New York, NY, 2013-2016.

Adjunct Lecturer, Dept. of Ecology, Evolution and Environmental Biology, Columbia University, New York, NY, 2010-2012

Postdoctoral Fellow, Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY, 2011-2013

Instructor, Columbia University High School Summer Program, New York, NY, 2010

Adjunct Lecturer, Dept. of Anthropology, Lehman College, New York, NY, 2008

## Scientific Publications (Peer-reviewed Journal Articles and Books)

## Grants and Fellowships

- NASA Earth Sciences Division GEO BON Program. Expanding Wallace biodiversity modeling software to support national biodiversity change indicator calculations for GEO BON assessment and reporting (PI). 2018-2021. \$595,057
- Prince Albert II of Monaco Foundation (U.S.). Collaborative transboundary conservation of vulnerable species and habitats in the Sino-Vietnamese border region under climate change (PI). 2018-2020. \$250,000
- Fulbright Specialist Award, Faculty of Environmental Science, Hanoi University of Science, Vietnam National University, 2017.
- National Science Foundation (NSF) Biology Research Experience for Undergraduates Mentor-Student Travel Scholarship. 2014. \$3,000 with Elora López.
- USAID Partnerships for Enhanced Engagement in Research (PEER) Science Program. Biodiversity conservation in Indochina: Integrating research and training to enhance wildlife trade management. 2014-2017. \$294,251 to PI Minh Le (CRES-VNU).
- National Science Foundation (NSF) Science, Engineering, and Education for Sustainability Fellowship Program. SEES Fellows: Integrating biology and econometrics across multiple scales for sustainable wildlife trade management. 2013-2016. \$418,464
- Disney Worldwide Conservation Fund. Conservation of the slow loris. 2013-2014. \$25,000
- Eppley Foundation for Research. Conservation of the slow loris: Informing management of the wildlife trade in Vietnam. 2012-2013. \$25,000

- Margot Marsh Biodiversity Foundation. Slow loris conservation in Vietnam: Informing management of the wildlife trade. 2012-2013. \$10,000
- Dissertation Writing Fellowship. American Association of University Women. 1 yr. graduate stipend, 2010-2011. \$20,000
- National Science Foundation (NSF) Doctoral Dissertation Improvement. Habitat modification and gene flow in an endangered New World primate. 2009-2010. \$10,271
- Margot Marsh Biodiversity Foundation. Habitat modification and gene flow in an endangered New World primate: Implications for conservation management. 2009-2010. \$10,000
- Columbia University Graduate School of Arts and Sciences International Traveling Fellowship. 1 yr. graduate stipend, 2008-2009. \$23,000
- NSF Integrative Graduate Education and Research Traineeship (IGERT) Program Fellowship. New York Consortium in Evolutionary Primatology. 4 yr. graduate stipend + \$5000 research stipend, 2005-2010.
- International Primatological Society. Habitat modification and gene flow in an endangered New World primate. 2008-2009. \$1500
- American Society of Primatologists Conservation Small Grant. The effects of habitat modification on gene flow: Matrix tolerance, dispersal and conservation in the Central American Squirrel Monkey (*Saimiri oerstedii*). 2008-2009.
- Daniel E. Fischer Conservation Grant, Northwest Primate Conservation Society, Eugene, OR. The effect of habitat fragmentation on population genetic structure in the Central American squirrel monkey. 2007.
- Institute of Latin American Studies Pre-Dissertation Research Travel Grant, Columbia University. The effect of habitat fragmentation on population genetic structure in the Central American squirrel monkey. 2007.
- Earth Institute Travel Grant, Columbia University. The effect of habitat fragmentation on population genetic structure in the Central American squirrel monkey. 2006.

## Research Projects

- Expanding Wallace biodiversity modeling software to support national biodiversity change indicator calculations for GEO BON assessment and reporting. Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY and City College of New York (City University of New York), Yale University, Pace University, and the Alexander von Humboldt Institute. Current
- Collaborative transboundary conservation of vulnerable species and habitats in the Sino-Vietnamese border region under climate change. Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY and Rutgers University, Vietnam National University. Current
- An integrative social ecological systems framework for research on illicit wildlife trade in Southeast Asia. Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY and Vietnam National University. Current

Biocultural resilience across landscape mosaics in Pacific Islands. (Eleanor Sterling, PI)  
Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY, Current

Land cover change analysis over 50 years in Central Vietnam. Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY, Current

Diversity, evolution, and conservation of the slow lorises (genus *Nycticebus*) in Vietnam: integrating evolutionary biology, anthropology and economics to address the complex threat of illicit trade. Center for Biodiversity and Conservation and the Sackler Institute for Comparative Genomics, American Museum of Natural History, New York, NY, Current

Conservation of evolutionary processes: Ecological Niche Evolution, Phylogenetic Endemism, and Ecotones in Madagascar. Center for Biodiversity and Conservation, American Museum of Natural History, New York, NY, Current

Ecological niche modeling, biogeography, and population monitoring of the douc langurs (*Pygathrix* spp). Center for Biodiversity and Conservation, American Museum of Natural History, New York NY, 2010-2012

Incorporating the threat of climate change into range-wide conservation planning for the jaguar (*Panthera onca*). Center for Biodiversity and Conservation, American Museum of Natural History and the Wildlife Conservation Society, New York NY, 2010-2011

Habitat modification and gene flow in *Saimiri oerstedii*: Landscape genetics, intraspecific molecular systematics, and conservation. Columbia University and Molecular Primatology Laboratory, New York University, 2006-2011

Inferring the geographic origin of modern humans using GIS and multi-locus genomic data. Columbia University and Molecular Primatology Laboratory, New York University, New York, NY, 2009-2010

Phylogeny and divergence dating of New World monkeys based on large non-coding genomic sequence data. Molecular Primatology Laboratory, New York University, 2007-2009

New World primate microsatellite marker screening in *Saimiri* fecal samples. Molecular Primatology Laboratory, New York University, 2007

Behavioral indicators of female choice in blue monkeys (*Cercopithecus mitis*) in the Kakamega Forest, Kenya. Columbia University, 2006-2007

Mapping *Saimiri oerstedii* troop locations and illegal deforestation sites using GIS (geographic information systems) technology. Fund for Costa Rica, Quepos, Costa Rica, 2006

Comparative methods of DNA extraction from mammalian feces. Sackler Institute for Comparative Genomics, American Museum of Natural History, 2006

Behavioral monitoring of free-ranging golden lion tamarins to facilitate their reintroduction into Brazil. The National Zoo, Washington, D.C., 2005

Alarm signaling via fecal odor in the domestic chicken (*Gallus gallus domesticus*). Swarthmore College, Swarthmore, PA, 2005

Microsatellite genotyping and mitochondrial sequencing of non-human primates for species, population, and individual-level barcoding. Integrated Primate Biomaterials and Information Resource (IPBIR), Coriell Institute for Medical Research, Camden, NJ, 2004

Handedness and food preference in captive Central American squirrel monkeys (*Saimiri oerstedii*). The Primatological Foundation of Costa Rica, San Miguel de Turrucares, Costa Rica, 2004

Infant carrying behavior in red-crested tamarins. The Primatological Foundation of Costa Rica, San Miguel de Turrucares, Costa Rica, 2004

## Invited Talks

"The promise and pitfalls of new machine learning methods for biodiversity modeling." Invited University Public Seminar. Hanoi University of Science, Vietnam National University, Hanoi, Vietnam, Nov 16, 2017.

"Ecological niche divergence, conservatism, and speciation processes." Guest lecture for graduate course in Speciation, Richard Gilder Graduate School, American Museum of Natural History, NY, Oct 27, 2017.

"Ph.D. Career Trajectories: Beyond the Tenure-Track." New York Consortium in Evolutionary Primatology Graduate Program Seminar, American Museum of Natural History, NY, Oct 6 2017.

"Illicit wildlife trade in Vietnam: examining drivers and scales of trade in a social-ecological systems framework". Invited Lecture. Department of Ecology, Evolution, and Environmental Biology Seminar, Columbia University, New York, NY. Oct 3, 2017.

"How does evolutionary biology inform biodiversity conservation? A case study of slow lorises in Vietnam." Keynote Lecture. NYU Courant Institute's Girls' Science, Technology, Engineering, and Mathematics (GSTEM) Summer Program Symposium. New York, NY August 11, 2017

"How Does Genetics Inform Biodiversity Conservation? Opportunities and Pitfalls" Invited Lecture. Sigma Xi - Swarthmore College Chapter, Swarthmore College, Swarthmore, PA. Mar 13, 2017

"Integrating Biodiversity Conservation Science Research Across Disciplines and Scales in the Lower Mekong Basin." Invited Talk. Lower Mekong Research Collaboration Initiative Symposium. U.S. Department of State, Washington, D.C. February 10, 2017.

"Slow loris conservation in Vietnam" Invited lecture for the Yeshiva University Natural History Society, New York, NY, Dec 15, 2016

"Primate Conservation and Conservation Genetics." Guest lecture for the New York Consortium in Evolutionary Primatology's Core Graduate Course in Primate Evolution and Behavior. American Museum of Natural History, New York, NY, Dec 5, 2016

"Primate Conservation Case Studies from Vietnam" Invited lecture, Rutgers University Primate Conservation Club, Nov 11, 2016

"Illicit wildlife trade in Vietnam: exploring drivers, scales, and diverse knowledges in a social-ecological systems framework." Yale Southeast Asia Studies Council, Southeast Asia Seminar Series, Yale University, New Haven, CT. Nov 9, 2016.

“How can genetics inform biodiversity conservation?: Opportunities and pitfalls” Keynote Address. Metropolitan Association of College and University Biologists Conference, SUNY Old Westbury, Long Island, NY. Oct 29, 2016.

Panelist. Roundtable on Diversity. International Primatological Society Congress, Chicago, IL. Aug 22, 2016.

“Examining the drivers of wildlife trade in Vietnam with an interdisciplinary approach.” Bard Center for Environmental Policy, Bard College, NY. April 28, 2016.

“How does evolutionary biology inform biodiversity conservation?: A case study of the slow loris trade” George Z. Tokieda Memorial Lecture, Brearley School, New York, NY. Feb 11, 2016.

“Scales of Wildlife Trade in Vietnam: Integrating Evolutionary Biology, Anthropology, and Econometrics to Address a Complex Problem” City College Biology Department Seminar, New York, NY, Feb 8, 2016.

“Enhancing Capacity for Research and Management of Wildlife Trafficking in the Lower Mekong Basin: Integrating Across Disciplines and Scales.” Second NSF 2015 International Workshop to Explore Research Frontiers through Partnerships in the Lower Mekong Basin. Can Tho University, Vietnam, Nov 29-Dec 1, 2015.

“Scales of Wildlife Trade in Vietnam: Integrating Molecular Phylogenetics, Ethnography, and Econometrics to Address a Complex Problem” Rutgers Ecology and Evolution Graduate Program Seminar Series, New Brunswick, NJ, Oct 22, 2015.

Panelist. “Successes in Primate Conservation.” Student Conference on Conservation Science-New York, Center for Biodiversity and Conservation, American Museum of Natural History, Oct 9, 2015.

“Enhancing Capacity for Research and Management of Wildlife Trafficking in the Lower Mekong Basin: Integrating Across Disciplines and Scales.” NSF 2015 National Workshop to Explore Research Frontiers through US Engagement in the Lower Mekong Basin. Laurel, MD, Sept 25-26, 2015.

“Slow loris conservation genetics in Vietnam.” Assessing the present status of Pygmy loris conservation in South Vietnam Workshop. Cat Tien National Park, Vietnam, August, 2015.

“Slow Loris Conservation in Vietnam.” Centre for Natural Resources and Environmental Studies joint program with the National University of Singapore. Hanoi, Vietnam, July 2015.

Panelist and Discussant, “Socioeconomic factors and consumer demand.” The Biodiversity Affinity Group of the AAAS Science & Technology Policy Fellowship Program’s half-day symposium “Combating Wildlife Trafficking: Communicating, Connecting, and Evaluating Challenges and Solutions for Policy Development and Implementation.” Washington, DC, May 7, 2015.

<http://aaaspolicyfellowships.org/event/combating-wildlife-trafficking>  
<https://www.youtube.com/playlist?list=PLxDfY7QHVCySJJV5qtnOQK1r1U-QHGBjk>

“Slow loris trade in Vietnam: An interdisciplinary research approach to study trade networks, prices, and drivers across scales.” Natural Resource Economics and Environmental Economics course, Bard Center for Environmental Policy, Bard College, NY, Dec 2014.

- “Las collecciones de historia natural como base para la investigación, conservación, y educación.” Translation: “Natural history collections as a foundation for research, conservation, and education” Plenary talk at the Uruguayan Zoological Congress, Dec 2014, led by co-author Ana Porzecanski.
- “Saving the Slow Loris: An Endangered Primate from Southeast Asia.” Biology Department Club Hour, Long Island University – Brooklyn, Nov 2014.
- “Ph.D. Career Trajectories: Beyond the Tenure-Track.” New York Consortium in Evolutionary Primatology Graduate Program Seminar, City University of New York Graduate Center, NY, Oct 2014. With co-presenters R. Delgado and J. Zichello.
- “Slow Loris Conservation in Vietnam: Integrating Evolutionary Biology, Anthropology, and Economics to Address a Complex Problem.” Astronomy Department Seminar, American Museum of Natural History, May 2014.
- “Slow Loris Conservation in Vietnam: Conservation Genetics as part of an Interdisciplinary Approach to Address a Complex Conservation Problem.” Biology Department Seminar, Hofstra University, NY, Feb 2014.
- “Ecological Niche Modeling for Biodiversity Conservation.” Guest lecture for graduate seminar in Zoogeography, City University of New York Graduate Center, NY, Feb 2014.
- “Slow Loris Conservation in Vietnam: Multidisciplinary Approaches to Address a Complex Conservation Problem.” Bard Center for Environmental Policy, Bard College, Annandale-on-Hudson, NY, Dec 2013
- “Ecology and Conservation: Primate Conservation Case Studies.” Guest lecture for the Introduction to Ecology course, Hanoi University of Science, Hanoi, Vietnam, April 2013
- “Conserving the Slow Loris.” Invited speaker for the Biology Research Seminar. Long Island University Brooklyn Campus, Brooklyn, NY, Nov 2012
- “Primate Conservation and Conservation Genetics.” Guest lecture for the New York Consortium in Evolutionary Primatology's Core Graduate Course in Primate Evolution and Behavior. Hunter College, New York, NY, Nov 2012
- “Remote Sensing at the Center for Biodiversity and Conservation.” Guest lecture for the Lang Science Program, American Museum of Natural History, New York, NY, Aug 2012.
- “Conservation Science at the Center for Biodiversity and Conservation.” Guest lecture for the Summer Science Institute, American Museum of Natural History, New York, NY, Aug 2012.
- “Variación Genética y Dispersión del Mono Tití en el Pacífico Central de Costa Rica.” Institución Internacional en Conservación y Manejo de Vida Silvestre (ICOMVIS), Universidad Nacional, Heredia, Costa Rica, July 2012
- “Genética de Paisaje y la Conservación: Estudio del Mono Tití en el Pacífico Central de Costa Rica.” Universidad de Costa Rica, San Pedro, Costa Rica, June 2012
- “Women and Diversity in Science: An Imperative for Biodiversity Conservation.” For the “Science and Society” Speaker Series, sponsored by the Institute for Women in

Science, Mathematics and Technology, and the Women's Studies Advisory Group.  
Wilson College, Chambersburg, PA, Nov 2011

"Primate Conservation and Conservation Genetics." Guest lecture for the New York Consortium in Evolutionary Primatology's Core Graduate Course in Primate Evolution and Behavior. Hunter College, New York, NY, Oct 2011

"Conservation Genetics." Guest lecture in Biodiversity and Conservation, AMNH Summer Program for High School Students, American Museum of Natural History, New York, NY, Aug 2011

"Conservation Genetics." Guest lecture in Conservation Biology, Dept. of Ecology and Evolutionary Biology, Princeton University, Princeton, NJ, March 2011

"Primate Conservation." Guest lecture in Primate Behavioral Ecology, Dept. of Anthropology, Hunter College, New York, NY, Feb 2011

"Conservation of the Central American Squirrel Monkey: Preserving Evolutionary and Population Processes." Guest lecture in Primate Conservation, Dept. of Anthropology, Hunter College, New York, NY, Feb 2010

"Landscape Genetics as a Tool for Conservation Management." Guest lecture in Wildlife Ecology and Management, Dept. of Biology, Barnard College, New York, NY, Nov 2009

"La modificación del hábitat y el flujo genético del mono tití." Technical Scientific Committee of the Central Pacific Conservation Area, Ministry of Energy and the Environment, Santiago de Puriscal, Costa Rica, Mar 2009

"Habitat fragmentation and gene flow." Guest lecture in Conservation Genetics, Dept. of Ecology, Evolution and Environmental Biology, Columbia University, New York, NY, Feb 2008

"La fragmentación del hábitat y la estructura genética del mono tití." Association for the Conservation of the Mono Tití, Manuel Antonio, Costa Rica, Aug 2007

## Teaching

Trading Nature: A Conservation Biology Perspective, Undergraduate Advanced Seminar, Columbia University, New York, NY 2016-Present (Developed and taught).

GIS and Remote Sensing for Conservation and Evolutionary Biology, Richard Gilder Graduate School, American Museum of Natural History, New York, NY, 2011-Present (co-developed and taught with Richard Pearson, Eleanor Sterling)

Fundamentals of GIS in Ecology and Conservation, Graduate Level, Columbia University, New York NY, 2012 (co-developed and taught course with Rob Rose)

Biodiversity, Undergraduate Level, Columbia University, 2010 (developed and taught)

Issues in Biological Conservation, Columbia University High School Summer Program, New York, NY, 2010

Introduction to Human Evolution, Undergraduate Level, Lehman College, New York, NY, 2008 (developed and taught)

As a Teaching Assistant at Columbia University:  
Graduate Seminar in Conservation Biology, Graduate Level, 2008  
Behavioral Biology of the Living Primates, Undergraduate Level, 2007  
Biodiversity, Undergraduate Level, 2006

Computer and Data Analysis Guide, Introductory Biology, Swarthmore College, 2005

Writing Associate, Introductory Biology, Swarthmore College, 2002-2005

Teaching Assistant, Animal Behavior, Swarthmore College, 2004

## Workshops Led

**Blair M.E.**, Galante, P.G., Meierdiercks, K., Sethi, G. Introduction to Spatial Econometrics in R. Bard Center for Environmental Policy, Bard College, Annandale-on-Hudson, NY April 28, 2017.

**Blair ME**, Le MD, Roos C. (co-instructors). Training Workshop: Improving Wildlife Trade Management through Applying Conservation Genetics and Forensic Science. Vietnam National University, University of Science, Faculty of Biology in collaboration with the Centre for Natural Resources and Environmental Studies, VNU, and the Vietnam Administration of Forestry. Hanoi, Vietnam Sep 19-23, 2016.

Workshop on Slow Loris Conservation and Action Plan for Primates in Vietnam. March 17-18, 2016 Vietnam Forestry Administration, Department of Nature Conservation, Ministry of Agriculture and Rural Development, Hanoi, Vietnam.

Sutton, A, **Blair, ME**, Malone, C. Wynn-Grant, R. (co-organizers) "What Am Doing With My Life? Career Planning for the Modern Conservationist". Student Conference on Conservation Science - New York, October 22, 2016, Center for Biodiversity and Conservation, American Museum of Natural History, NY.

Sutton, A, **Blair, ME**, Wynn-Grant, R., Malone, C. "What am I Going to Do with the Rest of My Life?! Exploring Careers in Conservation". Student Conference on Conservation Science - New York, October 9, 2015, Center for Biodiversity and Conservation, American Museum of Natural History, NY.

**Blair, ME**, Sutton, A, Wynn-Grant, R., Malone, C, Lopez E. "What am I Going to Do with the Rest of My Life?! Exploring Careers in Conservation". Student Conference on Conservation Science - New York, October 17, 2014, Center for Biodiversity and Conservation, American Museum of Natural History, NY.

Slow Loris Species Identification Workshop: Raising Awareness and Improving Enforcement. July, 22, 2014. Vietnam Forestry Administration, Department of Nature Conservation, Ministry of Agriculture and Rural Development, Hanoi, Vietnam.

**Blair, ME**, EJ Sterling. 2014. Building a Roadmap to a Broader Community: An Open Meeting of the SCB's Committee on Diversity. North American Congress on Conservation Biology, July 13, 2014 Missoula, MT.

Sutton, AE, Wynn-Grant, R, Malone, C, **Blair, ME**. "What am I Going to Do with the Rest of My Life?! Exploring Careers in Conservation". Student Conference on Conservation Science - New York, October 9, 2013, Center for Biodiversity and Conservation, American Museum of Natural History, NY.

**Blair, ME**, Sterling, EJ, Wynn-Grant, R., Sutton, A, Malone, C. 2013. Enhancing Diversity in the

Conservation Science Workforce: What are the barriers to increasing diversity and what can organizations like SCB do? International Congress in Conservation Biology July 21-25, 2013 Baltimore, MD

## Professional Service

- Lower Mekong Research Collaboration Initiative Steering Committee, U.S. Department of State, 2016-Present
- Symposium and Panel Discussion: “Frontiers of biodiversity informatics and modeling species distributions” (M. E. Blair, R. P. Anderson, and D. Schigel, organizers). Global Biodiversity Information Facility and American Museum of Natural History, 4 November 2015, New York, NY
- Member of US Delegation, U.S.-Vietnam Science and Technology Joint Committee Meeting, Working Group on STEM Education and Research Exchange, Dec 2-4, 2015 in Ho Chi Minh City
- International Primatological Society Conservation Committee (2015-Present) and Committee on Diversity, 2016-Present
- Vietnam Primate Technical Working Group Member (IUCN/SSC Primate Specialist Group), 2015-Present
- International Advisory Board, Bidoup Nui Ba National Park, Vietnam, 2015-Present
- Society for Conservation Biology Board Committee on Diversity, 2014-Present
- International Primatological Congress Scientific Committee and Symposium Organizer “Multidisciplinary Studies of Primates in Trade” Hanoi, Vietnam, 2014
- Asia Field Advisor, Association of Zoos and Aquariums Prosimian Taxon Advisory Group, 2013-Present
- Editorial Board Member: *American Journal of Primatology*, 2018-Present
- Special Issue Editor: “Multidisciplinary Studies of Wildlife Trade in Primates” *American Journal of Primatology* Vol. 79 Issue 11, Nov, 2017. <http://onlinelibrary.wiley.com/doi/10.1002/ajp.v79.11/issuetoc>
- President, New York Women in Natural Sciences, American Museum of Natural History Chapter of the Association for Women in Science, 2013-Present
- Coordinator of the New York Regional Species Distribution Modeling Discussion Group, 2012-Present
- Coordinator of the Inclusive Conservation Community Initiative (ICON) at the Center for Biodiversity and Conservation, AMNH, 2011-Present
- Manuscript Reviewer: *Nature Scientific Reports*, *Conservation Biology*, *Proceedings of the National Academy of Sciences USA*, *Global Change Biology*, *Biology Letters*, *Molecular Ecology*, *Molecular Phylogenetics and Evolution*, *Methods in Ecology and Evolution*, *PLoS ONE*, *PLoS Neglected Tropical Diseases*, *Oryx*, *Journal of Biogeography*, *Conservation Genetics*, *American Journal of Primatology*, *International Journal of Primatology*, *Ecology & Evolution*, *American Journal of Physical Anthropology*, *Heredity*, *Hystrix*, *Journal of Herpetology*, *Remote Sensing in Ecology and Conservation*, *Asian Primates*, *Primates*, *Primate Conservation*, *International Zoo Yearbook*, *Mitochondrial DNA*, *f1000 Research*, *Studies on Neotropical Fauna*, *Zoo Biology*, *Frontiers of Biogeography*, *Endangered Species Research*, *Biological Reviews*
- Book Reviewer, *Oxford University Press*, *Wiley-Blackwell*
- Mentor to teams of high school students for the AMNH Student Research Mentoring Program and the NYC Urban Barcode Project
- Mentor, speed talk session moderator, and poster reviewer, Student Conference on Conservation Science – New York, American Museum of Natural History, 2011-Present
- Symposium organizer, “Landscape Genetics in Primates: New Methods and Applications,” International Primatological Society Congress, Kyoto, Japan, 2010

## **Honors and Awards**

Fulbright Specialist Program Fellow, 2017

NSF Science, Engineering, and Education for Sustainability Fellow, 2013-2016

American Association of University Women (AAUW) Dissertation Writing Fellow, 2010-2011

First Place, Student Oral Presentation, International Primatological Society Congress, Kyoto, Japan, 2010

Finalist, Presidential Award for Outstanding Teaching, Columbia University, 2008

Phi Beta Kappa, Swarthmore College, 2005

Leo M. Leva Memorial Prize, Swarthmore College Biology Department, 2005

## **Professional Affiliations**

- Phi Beta Kappa
- Society for Conservation Biology
- International Primatological Society
- International Biogeography Society
- Association for Women in Science
- American Association of University Women
- American Association for the Advancement of Science

## **Additional Skills**

- Fluent in Spanish, some conversational Vietnamese
- R language, QGIS, ArcGIS, and other GIS and statistical platforms
- Coached little league baseball team in Harlem, 2009 AAA summer ball champions
