WHAT TO DO:

• Use your imagination and picture each of the four scenes on the following pages in your head. What would you see?

• Then draw how the world would look to you from each of the different windows.
Imagine you are looking out your bedroom window. What would you see?
Imagine you are looking out the window of a speeding car. What would you see?
Imagine you are looking out of an airplane window. What would you see?
Imagine you are riding on a beam of light. What would you see?
