

Student Worksheet

Name: _____

STOP 1 Find the diorama with a *Triceratops*

👁️👁️ Look at this diorama. How does it make you feel? Circle a face or draw your own.

|||| The animals and plants in this diorama lived a very, very long time ago.
Find as many animals as you can. Make tally marks for the different features you see.

feathers	fur	scaly skin	sharp teeth	shell	larger than you	smaller than you

😊😊 Talk about it. Which feature has the most tally marks? Which feature has the fewest?

STOP 2 Find the diorama of a scene after an asteroid impact

👁️👁️ Look at this diorama. How does it make you feel?

😊😊 Talk about it. What plants and animals do you see?

STOP 3 Explore the large area that represents days to millions of years after impact

👁️👁️ Look at the different animals in this area. How does it make you feel?

|||| The animals in this section lived after an asteroid hit our planet. Find as many animals as you can. Make tally marks for the different features you see.

feathers	fur	scaly skin	sharp teeth	shell	larger than you	smaller than you

😊😊 **Talk about it.** Which feature has the most tally marks? Which feature has the fewest?

STOP 4 Find the exhibit that represents today

👁️👁️ Look at the animals in this exhibit. They are alive today on our planet. How does seeing them make you feel?

|||| Make tally marks for the different features you see.

feathers	fur	scaly skin	sharp teeth	shell	larger than you	smaller than you

😊😊 **Talk about it.** Which feature has the most tally marks? Which feature has the fewest?
