

SCIENCE BULLETIN: WINTER ROADS MAKE SALTY STREAMS	
Questions	Winter Roads
<p>1. What abiotic factor(s) have people changed?</p>	
<p>2. Why do people change the abiotic factor? Why does it help us?</p>	
<p>3. What are the consequences to the living (biotic) and non-living (abiotic) parts of the ecosystem of that abiotic change?</p> <p>Use the terms abiotic and biotic factors in your answer.</p>	
<p>4. How do you know these are the consequences?</p> <p>Describe the evidence or data that support the claim that changing this abiotic factor impacts the surroundings.</p>	
<p>5. Suggest how you might solve this problem.</p>
