

AMERICAN MUSEUM OF NATURAL HISTORY

# Hack The Universe

Saturday, November 8 | 1–5:30 pm | Cullman Hall of the Universe

Find out what happens when computer science meets astrophysics at *Hack the Universe*. Join us for family-friendly presentations and activities where you'll learn about how scientists use computers to study, visualize, and understand the universe.

**Free with Museum Admission**

*This program is part of BridgeUp: STEM, a new initiative educating youth and the public about cutting edge computing in scientific research and science communication.*

*BridgeUP: STEM is generously supported by a grant from the Helen Gurley Brown Trust*
